### Our Mission

Healing Spaces' mission is to warm the hearts and bring joy to seriously ill children by creating a unique healing environment in their home that minimizes the stress of hospitalization and gives them their own space to recover.

Utilizing the assistance of designers, artisans and volunteers, and input from the child, we transform their bedroom into a personalized environment, complete with healing elements specific to their individual needs.

Montclair is generally considered to be the 13th oldest golf club in America. Its founding members initially staked out a course in the Town of Montclair on land now occupied by the Erwin Park residential neighborhood and by Edgemont Park.

In 1899, the first 18 hole course, designed by Tom Bendelow, was established at roughly the present location of the first and second nines. The Montclair Golf Club today is enjoyed by the families of its diverse members. Whether engaging in a full range of sports and social activities on its recognized first class golf course or in its gracious, recently renovated clubhouse, the members take great pride in their history and present standing.

In 1995, the Metropolitan Golf Writer's Association selected Montclair as its "Club of the Year" for "upholding the sport and traditions of the game and its consistent and energetic support of golf and its related activities.
